Study with MDV and BPP

Training Modes

Why a career in chartered accountancy?

If you think chartered accountants spend their lives confined to their desks, then think again. They are sitting on the boards of multinational companies, testifying in court and advising governments, as well as supporting charities and businesses from every industry all over the world.

Key Components

The ACA integrated components provide an in-depth understanding across accountancy, finance and business.

These are designed to complement each other, which means that students can put theory into practice and can understand and apply what they learn to their day-to-day work.

The ACA qualification improves students' ability and performance in seven key areas:

Adding Value

Communication

Consideration

Decision Making

Problem Solving

Team Working

Technical Competence
